RED LIGHT THERAPY

# InfraCouch Red Light

/ Fitness / Wellness / Rehabilitation / Longevity

# Introduction

## ABOUT THE PRODUCT

Infracouch Red Light is a full-body red and infrared light system designed to support recovery, relaxation, and overall wellness.

By combining advanced light therapy technology with a comfortable, user-focused design, it delivers an effective and non-invasive experience suitable for both professional and personal use.

# THE TECHNOLOGY BEHIND THE INFRACOUCH

## How It Works

InfraCouch combines infrared and red light – forms of energy used in modern light-based wellness therapies. Infrared light is perceived by the body as heat, while red light is visible and commonly used in photobiomodulation.

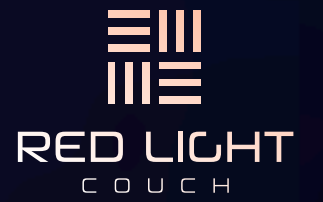

Red light therapy works by delivering light photons into the skin, where they interact with cells and support natural energy processes. This interaction is associated with improved cellular activity and overall tissue vitality.

InfraCouch goes beyond light therapy by integrating a gentle vibration massage. This added feature enhances relaxation and complements the effects of infrared and red light, supporting both physical comfort and mental well-being.

# The Power of Infrared

## KEY BENEFITS OF INFRARED THERAPY

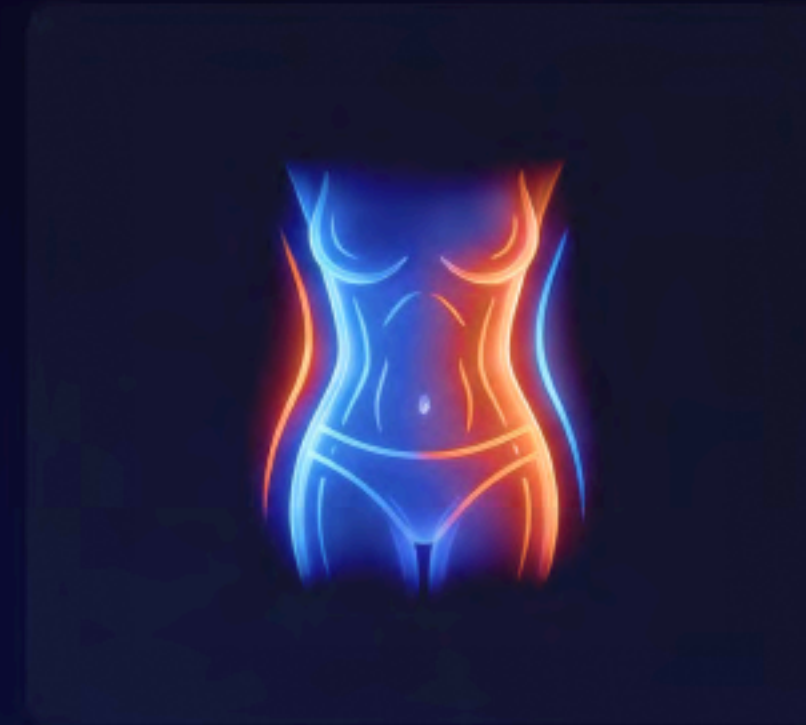

### SKIN HEALTH

Infrared exposure supports skin vitality by promoting circulation and helping maintain a healthy, even appearance.

### MUSCLE RECOVERY

Deep, gentle warmth helps relax muscles and supports faster recovery after physical strain.

### BODY CONTOURING

Infrared heat can assist natural metabolic processes involved in tissue toning and body shaping.

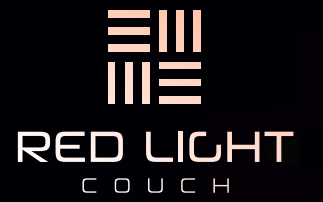

### MENTAL CLARITY

Comfortable thermal relaxation helps reduce stress, supporting focus and mental clarity.

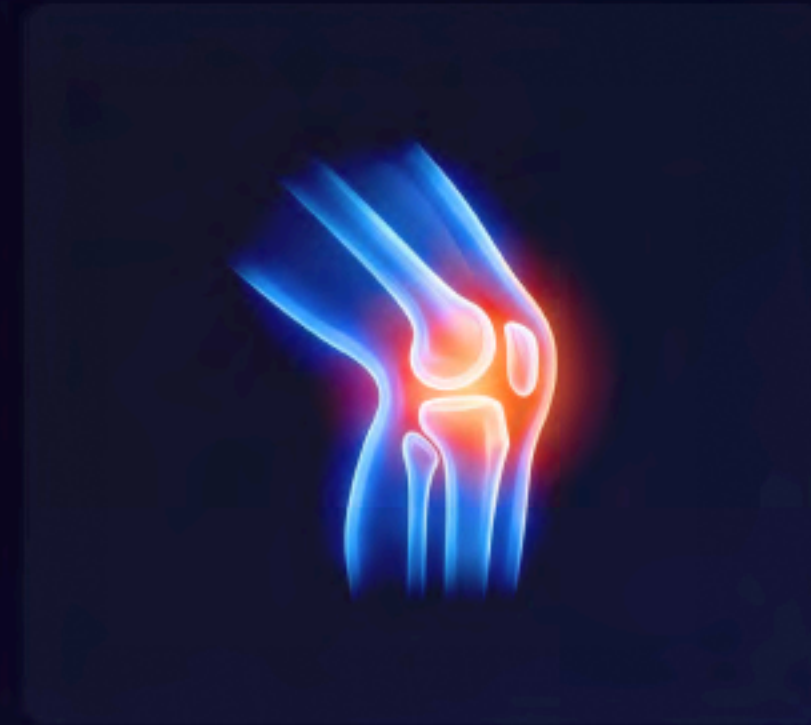

# The Power of Infrared

## KEY BENEFITS OF INFRARED THERAPY

### ATHLETIC ENDURANCE

Regular infrared sessions support muscle readiness and overall physical performance.

### JOINT PAIN

Targeted warmth helps ease stiffness and supports joint comfort and mobility.

### SEXUAL VITALITY

By supporting circulation and overall relaxation, infrared therapy contributes to general vitality and well-being.

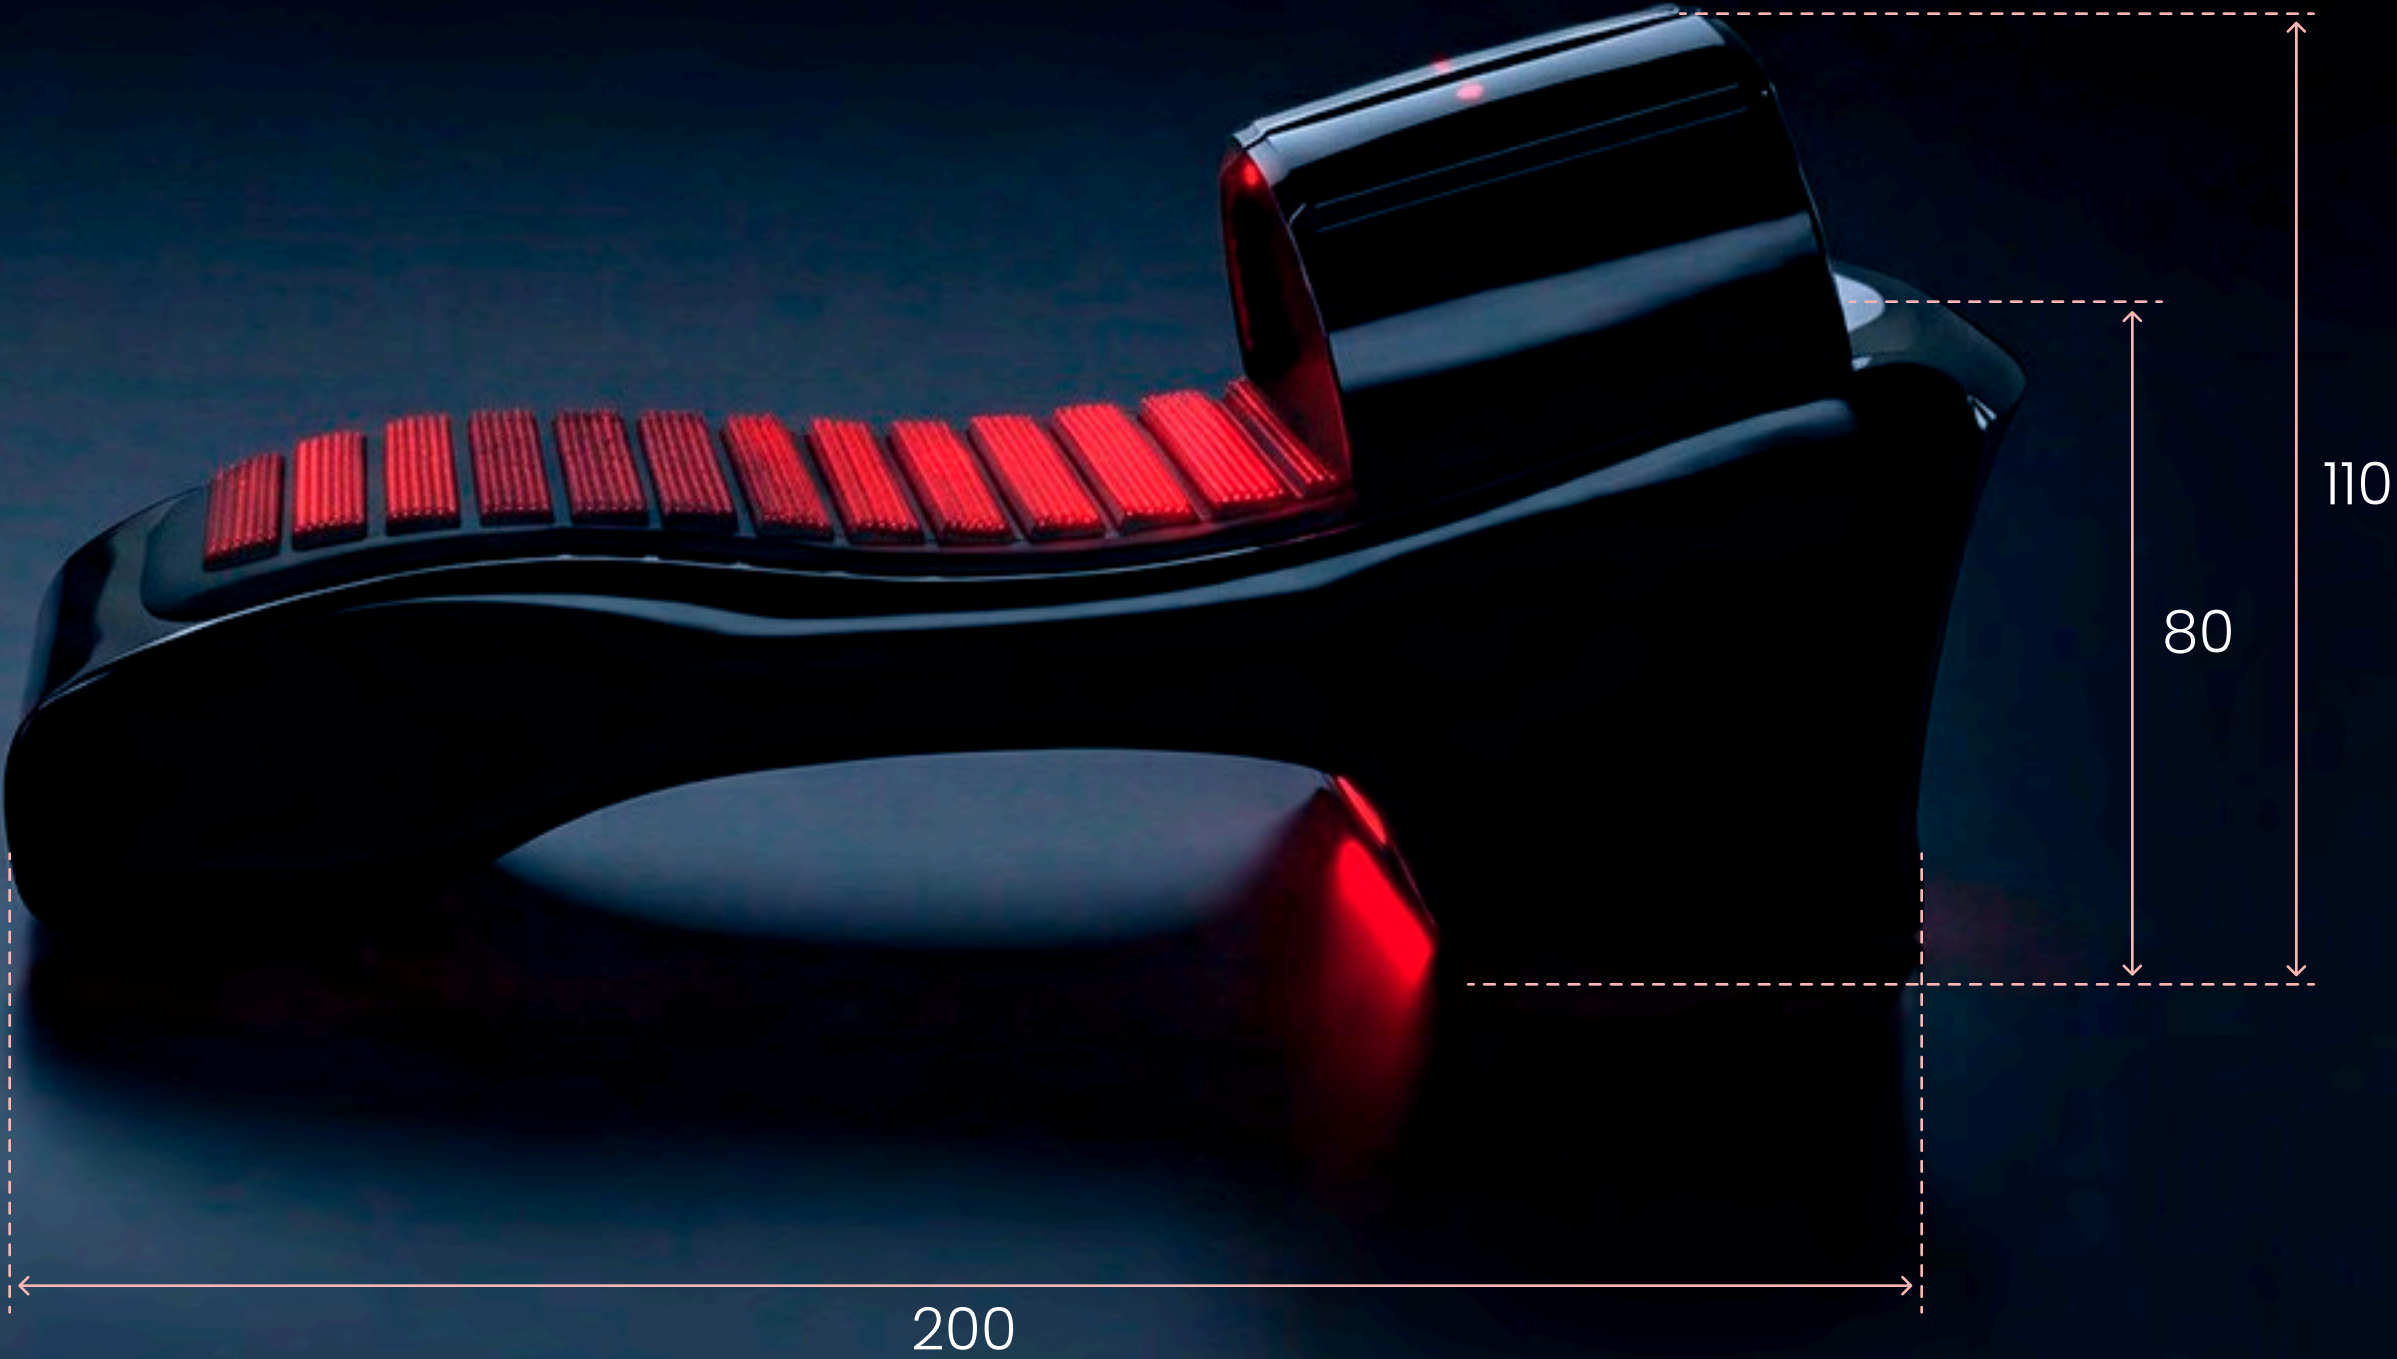

### RELAXATION & SLEEP

Infrared warmth promotes deep relaxation, helping the body unwind and prepare for restful sleep.

# Specifications

## LED RED & INFRARED LIGHT

### LEDs

3 chips in one LED. 1152 LEDs in total and each LED included 2 pcs 660nm chips and 1pcs 850nm chip

### Covex lens

30 degrees beam angle lens with high irradiance and brightness

### Pulsed lights

Yes with 6 levels of auto settings up to 30 min session

### LED facial mask technical specification

35W, 264LEDs

### Facial lights

Red (615-655nm),  
Orange (590-630nm),  
Green (540-580nm),  
Cyan (480-490nm),  
Blue (395-435nm),  
Purple (360-400nm),  
Yellow (580-590nm),  
Cyclic lights

# Areas of Application

## WELLNESS & SPA CENTERS

Relaxation, recovery, and non-invasive wellness sessions.

## REHABILITATION & PHYSIOTHERAPY CLINICS

Support for muscle recovery and physical restoration.

## FITNESS & SPORTS FACILITIES

Post-workout recovery and performance support.

## BEAUTY & ANTI-AGING STUDIOS

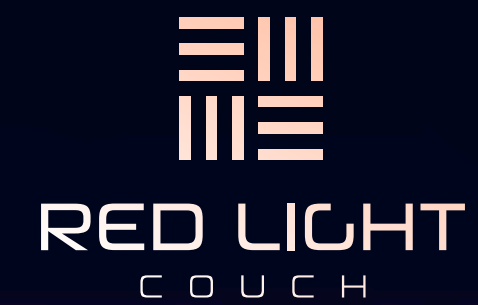

Skin wellness and body care applications.

## HOME & PERSONAL WELLNESS USE

Regular sessions for overall well-being and relaxation.
